

TAKAHE BUFFET MEAL

Why a Buffet!?

We have all heard stories such as "The buffet resembled the siege of the Bastille. Somehow, ordinarily sensible people feared that the food would be taken away before they get there, or that others will take all of the choice items, leaving them to munch on a carrot."..

We do it differently!! How?

Our Takahe sit down buffet selections have come direct from our À la carte menu and are designed specifically to be served table by table.

Carefully orchestrated by our FOH staff and chefs, the display of food has the appearance of a fully stocked buffet, whether your guests are the first or the last to get there.

Our servers can be on-hand to assist, to Carve and make sure each guest has their first choice before those crafty rascals get seconds in...

Ve,V, DE, GF, Keto etc can be catered for.
